

powered mobile pallet racking

Link 51's XL racking is easily configured for space-saving mobile storage.

With the racking mounted on mobile chassis which move along guide tracks set into the floor, the floor space for only one 'moving' operating aisle is required to access all pallet locations.

This space-saving design makes mobile pallet racking particularly suited to cold stores, as the maximum amount of space can be utilised for storage.

Control ranges from individual chassis to computerised systems, with safety features incorporated to prevent accidental operation.

Features check list

Space utilisation of floor area	✓ ✓ ✓ ✓ ✓
Utilisation of cubic storage space	✓ ✓ ✓ ✓ ✓
Access to individual pallet loads	✓ ✓ ✓ ✓ ✓
